ISIN code: (A) LU1915993148

Management Company: Amundi SGR S.p.A

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The objective of this Sub-Fund is to achieve capital appreciation over the recommended holding period by investing in a diversified portfolio of:

- Investment Grade or sub-Investment Grade debt and debt-related instruments denominated any currency, issued by companies, governments, local authorities and international public or supranational bodies based anywhere in the world including Emerging Markets;
- Money Market Instruments and cash.

During the three years after launch, the allocation of the Sub-Fund's assets to Emerging Markets securities will gradually increase so that, after such period, the Sub-Fund will invest at least 80% of its assets in Emerging Markets securities.

The overall exposure to local currencies from Emerging Markets may not exceed 25% of the Sub-Fund's assets.

The Sub-Fund's investments may include convertible bonds and, up to 10% of its assets, contingent convertible bonds and any equity instruments that result from the conversion of such bonds. The Sub-Fund's exposure to distressed securities is limited to 10% of its assets.

The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure to various assets, markets or income streams.

The Sub-Fund may also invest in units or shares of UCIs.

Benchmark : The Sub-Fund is actively managed and is not managed in reference to a benchmark.

The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe.

This is a non-distributing unit class. Investment income is re-invested.

The minimum recommended holding term is 3 years.
